My Dinosaur Atlas

6 Years +

The Earth is old and the animals which have wandered around it since the beginning of time are fascinating! *My Dinosaur Atlas* is a fabulous introduction to the prehistoric fauna – a tool to understand its diversity and the importance of conserving today's nature.

The giant size of the Atlas allows to show more than 100 fascinating dinosaurs and 50 other prehistoric creatures. The “Search & Learn” stickers will help children realize that before the rise of the dinosaur era and after, what fauna existed on earth.
